

ARK

SHELTER

A versatile, multi-purpose, mobile structure used in ministry to share God's love with the lost.

The ARK is used as a:

- Theater to show the JESUS Film
- Medical clinic
- Chapel to hold services
- Auditorium for meetings
- Classroom for teaching

The ARK is a Quonset style building 24 feet long by 16 feet wide and 11 feet tall giving it a large and spacious feeling. This portable structure is able to withstand gale-force winds yet can be divided into luggage size bags for transportation. It has double-wide screen doors at both ends of the structure, a vented gable, and sidewalls up to 6 ft tall with bug screens to offer ample ventilation. Full storm flaps close to keep out the elements in adverse climates, offer

privacy, or can double as a covered porch. An interior white divider curtain wall is used for a film screen.

The ARK is fast and easy to set up in the field and the unique benefit is that these units can be moved to the next needed location and re-used indefinitely. JESUS Film Harvest Partners gained access to these units when the owner of the ARK manufacturing company heard and responded to God's call.

The Challenge:

Pray: Please pray for the JESUS Film teams in their use of the ARK to minister.

Provide: Give toward the purchase of an ARK. (cost: \$14,000)

Include AHE1022 in the memo of your check made payable to:

JESUS Film Harvest Partners.
15055 W 116th Street, Olathe, KS 66062

Thank you for your prayers and support.
